MICRONEEDLING + RF

Non-Surgical Face And Body Lift

- Morpheus8 Radiofrequency (RF) microneedling uses tiny needles that penetrate deeper layers of skin to revitalize collagen and elastin production, creating **renewed, tighter, firmer skin** that's also more **even-textured and even-toned**.
- Two different needle lengths make this **customizable for face or body**, allowing the treatment to reach and renew deeper layers of skin and tissue.
- The winning combination of radiofrequency and microneedling make this treatment effective for a variety of skin concerns.

On the face, it combats:

- Wrinkles
 - Crepey skin
 - Enlarged pores
 - Rosacea
 - Acne scarring
 - Rough texture
 - Uneven tone
 - Double chin
 - Buccal fat reduction
 - Active acne
 - Scars
- Safe for all skin types.
 - Minimal downtime.

On the body, it addresses:

- Skin laxity and crepiness
- Stretch marks
- Scars
- Sweat reduction
- Cellulite
- Fat reduction
- Back acne

Morpheus8 is a mighty collagen stimulator. It creates controlled damage of tissue with microneedles and deposits radiofrequency underneath skin to trigger reparative and rejuvenating system within skin. This is the "most effective and most intensive treatment of all RF microneedling devices on the market, it is truly state of the art". - Klara

FORMA

RADIOFREQUENCY

- Non-surgical rejuvenation treatment utilizing RF energy to safely penetrate the skin, causing it to contract resulting in lifting and tightening of ageing skin
- Aka a 'lunchtime' facial
- Revitalises collagen
- Tightens skin
- Reduce crow's feet, fine lines, and wrinkles
- Safe for upper and lower eyelids
- Helps sculpt facial contours including jawline, smile lines, jowls and nasolabial folds
- Restores the skin structure of the neck

I call Forma Facial a Red Carpet Treatment for its pain-free, tissue remodeling capabilities. - Klara

FIBROBLAST PLASMA SKIN TIGHTENING

- Noninvasive, non-surgical eyelid lift procedure
- Tightens and lifts skin around the eyes (eyelids, under eye bags, crows feet)
- Uses a pen-like device that discharges a high-frequency electric current to small areas above the skin creating small holes, or micro-injuries, in the skin's layer - resulting in Fibroblast Cells activation
- Stimulates the production of collagen and elastin
- Encourages tissue regeneration
- Causes tissue contraction (tightening)

hydracial[®]

RADIANT RESULTS
THAT LAST.

HYDRAFACIAL®

- Aka hydra-dermabrasion, hydrafacial uses a patented technology (vortex-fusion) to deep clean pores while simultaneously infuse skin with medical-grade serum boosters
- Cleanses & peels (gently resurfaces skin and removes dead skin cells)
- Extracts & hydrates (removes debris from pores with painless suction and nourishes with moisturizers)
- Fuses & protects (saturates the skin's surface with antioxidants and peptides to maximize radiance)
- Diminishes the look of fine lines and wrinkles
- Smooths skin texture
- Helps control acne

I pair Hydrafacial treatment with a fully customizable skin boosters (J.Lo, Zo Obagi, others) and an at-home K-Method Skincare Regimen to help maintain the results. - Klara

MICRODERMABRASION

- A form of **cosmetic treatment** that **exfoliates** the top layer of skin
- It can improve the appearance of skin affected by sun damage, wrinkles, acne, and other conditions
- A minimally invasive and safe procedure for most skin types and colors, with little to no downtime
- Brightens a dull complexion

SCALP TREATMENTS

1. SCALP PIGMENTATION:

- Scalp micropigmentation is a method of covering up alopecia by introducing a dye imitating natural hair into the epidermis, used by both men and women suffering from all kinds of problems related to baldness and helping to hide various types of scars and discoloration.
- 100% tailored to the client's unique needs and concerns.
- Conducted with specialized equipment, the procedure is safe and nearly painless.
- The results are long-lasting - pigment placed in the epidermis lasts for several years and gradually brightens over time. It depends on individual predispositions, scalp exposure to UV radiation, selected pigment and the number of sessions performed.
- We obtain a natural effect of a shaved scalp, we can reconstruct the hairline at progressive curves, mask alopecia on the top of the head, and camouflage visible thinning even with longer hair.

2. HYDRAFACIAL KERAVIVE – SIMPLY HYDRAFACIAL FOR THE SCALP:

hydradermal | keravive.

- Exclusive to HydraFacial, the Vortex Fusion Technology gently yet thoroughly refreshes and revives all skin types, even on the scalp.
- This innovative treatment cleanses, exfoliates, and hydrates the scalp and hair follicles, ensuring a comprehensive solution for your hair care needs.
- Three Easy Steps to Healthy Skin:
 - **Cleanse & Exfoliate:** deeply cleanses and softens the skin, preparing it for the next steps.
 - **Extract:** exfoliates the scalp and nourishes hair follicles with growth factors and skin proteins, promoting a healthy scalp and fuller-looking hair.
 - **Extend & Enhance:** daily use of HydraFacial Keravive Peptide Complex Spray ensures ongoing benefits, including increased scalp

circulation, thicker and fuller-looking hair, and a cleaner, exfoliated, and hydrated scalp.

- Suitable for almost everyone, regardless of hair type or texture, with added benefits for those dealing with specific scalp issues like dryness.
- No downtime; in fact, it's an incredibly relaxing experience!
- HydraFacial Keravive Peptide Complex Spray should be used between treatments and for 90 days after the final session, ensuring continuous benefits.
- A course of three treatments is recommended, spaced once per month, for optimal results in achieving a revitalized scalp and healthier hair.

3. SCALP REJUVENATION:

- Combination of HydraFacial Keravive and Microneedling - an exclusive cocktail of active ingredients designed to rejuvenate your scalp.
- A powerful and dynamic fusion nurtures your scalp, promoting optimal hair health from within.
- HydraFacial Keravive's unique hydration technology coupled with microneedling, meticulously curated for your individual needs, ensures a deep infusion of moisture, leaving your scalp supple and revitalized.
- Boosts scalp circulation, promoting nutrient delivery for visibly healthier hair.
- Tackles dryness, flakiness, and other scalp concerns head-on with the targeted approach of microneedling and HydraFacial Keravive.
- Spectacular and long-lasting results - fuller, thicker, and more radiant hair that steals the spotlight.

GLOW-TOX FACIAL

Nano-needle infusion technology

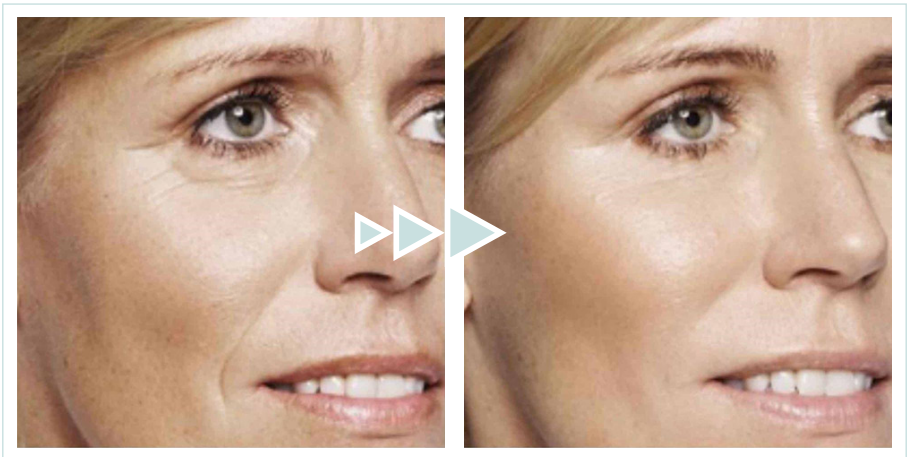

Pamela Anderson's favorite

GLOW-TOX FACIAL

- Infuses skin with bioactive compounds: i.e. growth factors, neuromodulators like Botox, hyaluronic acid, vitamins through gold plated stainless steel microneedles
- A proprietary cocktail of actives ingredients for transdermal delivery
- Known as the Red Carpet facial, a big day must treatment with no downtime
- Boosts collagen production
- Addresses fine lines and wrinkles
- Reduces pore size
- Softens acne scars
- Pain-free treatment
- 100% customized to the client's needs and concerns

I use Glow-Tox Facial, a micro-channel mesotherapy, to give my clients a flawless, GLASS SKIN effect. The nanoneedling itself generates collagen while hyaluronic acid and other active ingredients plump the skin. - Klara

DERMAPLANING

Dermaplaning service designed to elevate your skin to new heights.

What is Dermaplaning?

Dermaplaning is an advanced exfoliation technique performed by our skilled estheticians. Using a precision surgical blade, we delicately remove the outermost layer of dead skin cells and fine vellus hair (peach fuzz). This meticulous process not only reveals a smoother, brighter complexion but also creates the ideal canvas for further skincare treatments.

Luxurious Precision:

Our highly trained professionals perform dermaplaning with utmost precision, ensuring a luxurious and comfortable experience. The meticulous technique results in a velvety-smooth texture, allowing your skin to absorb subsequent skincare products more effectively.

Glowing Results:

Beyond the removal of dead skin cells and peach fuzz, dermaplaning promotes cellular turnover,

unveiling a radiant and refreshed skin tone. The immediate glow and smoothness achieved make this treatment a favorite among those seeking instant, yet lasting, results.

Tailored Elegance:

Indulge in the sophistication of our dermaplaning service, tailored to your individual skincare needs. Our experts assess your skin's unique characteristics, ensuring a personalized approach that complements your beauty and addresses specific concerns.

The Art of Renewal:

Dermaplaning is more than a skincare treatment; it's an artful renewal that rejuvenates both your complexion and your spirit. Experience the exquisite blend of professionalism, friendliness, and luxury as you embark on a journey towards timeless beauty.

Elevate your skincare routine with the refined touch of dermaplaning – where precision meets pampering, and luminosity meets luxury.

I am smitten with everything about Klara Beauty Lab!

This was my first lash lift and within a minute of meeting Klara I knew I was in expert hands. She took the time to determine my desired look and offered her expert opinion in achieving those results.

Klara has a sincere warmth about her that made me feel so comfortable throughout the process. She truly is an artist and I am so obsessed with my results. My lashes look amazing even two weeks later! In addition to being very talented Klara exudes kindness and is just a pure delight to talk to! - Jeana C.

How a most beautiful blonde woman gave my stubborn Asian eyelashes the most beautiful lifted curves?!?!... Klara debunks the myth that only Asians could understand our unique skin and eyelash needs. She is uniquely talented, intuitive. But above all, Klara is amazingly warm person, her presence is magnetic; it is such an honor to be on her table getting pampered and also leave the door with my heart feeling full and grateful each time. I will be a client as long as Klara is practicing! - Wei T.

THE SKINCARE SECRET BEHIND PAMELA ANDERSON'S GLOW UP

According to her makeup artist, her esthetician, and the star herself.

“...when it comes time for public appearances, Pamela Anderson turns to trusted pros like ... her go-to esthetician, Klara Chruszcz. “Pamela’s skin routine is simple: clean and consistent,” says Chruszcz, the founder of luxe New York City medical spa Klara Beauty Lab. “She does weekly facials for cleansing and toning, and because she favors fresh skin over foundation, we focus on the most important aspects of skin maintenance: hydration, nourishment, and oxygenation to keep her skin plumped and healthy.”

CUSTOMER TESTIMONIALS

“Can't say enough about Klara! She is always welcoming and humble and you're at ease immediately upon arriving. Her skills and knowledge are top notch. Always happy with whatever gets done! 10stars in my book. - Collen Z.

“I have been “an aesthetic patient” of Klara for the past 7 years and I must say - my face has aged rather graciously thanks to the many treatments Klara had performed on me. I started with the “basics”: facials and chemical peels and then graduated to non-invasive procedures like BBL, Moxi & Morpheus. Klara's facials are like no other; prepare to spend almost 3 hours getting pampered by various modalities: from oxygen infusion, to face/neck/decollete/shoulder massage, LED light therapy, microdermabrasion, cryotherapy (when applicable), masks, chemical peels, etc. These are all part of the Royal Facial and are customized by Klara per your skin's individual needs. My skin seemed to be craving all of the above every time I got to treat myself to a facial :) My complexion was always more vibrant & radiant (healthy glow), definitely more rejuvenated and firm/supple post facial.

Then came the powerhouse treatments like BBL, Moxi and Morpheus. These are no joke and yield visible results.

BBL took a veil of pigmentation off my sun-damaged skin in just one treatment. I was positively surprised how most stubborn dark spots were faded and some were gone (and I do not miss them). Chemical peels didn't achieve what 1 BBL session at Klara did.

And Morpheus - it is a love at first sight for me. I went through two rounds of treatments thus far. Two weeks later, my face is visibly lifted- especially the sagging jawline area - although I still have ways to go. The treatment is totally worth every penny and the slight “discomfort.” Klara made sure I was properly numbed. I believe she waited almost an hour for the numbing cream to properly take effect - before performing Morpheus treatment on me. There is never a rush at Klara's. She takes her time and tends to one customer at a time.

And last but not least, Moxi - I think this is becoming my new favorite rejuvenating treatment at Klara's -although I am still to experience Fibroblast and Acquagold. Between BBL and Moxi - one can't go wrong. You get correction and pre-rejuvenation bundled together. I will be back for touch ups soon.

For those who have not met Klara - the face and heart of Klara Beauty Lab - she is one of a kind master aesthetician, an expert in the aesthetic field, a walking encyclopedia with a vast knowledge of all things skin and skincare. You can tell she is truly passionate about her profession and does it from the heart. That's her true calling. Her perfectionism and great attention to detail are an added bonus for those who entrust their face/skin to her skillful hands.

Don't walk - run to Klara Beauty Lab and leave with a rejuvenated complexion. - Ewelina A.
